

NO MAN'S LAND

THE FROZEN CONTINENT

Antarctica (aka South Pole) is no man's continent. You need no passport to get there. About 90% of this land is covered by snow, ice and temperature may reach -80°C .

At present , only a few scientific bases are operational from the coldest place in the world.

They belong to the international research community.

Reported active calls are 8J1RL, DP0GVN, IA0MZ, KC4AAA, RI1ANC, RI1ANF, RI1ANP, VK0GB, VK0JJJ, ZS1ANT.
